SALEEN MUSTANG

**THE SALEEN MUSTANG
POWER IN THE HANDS
OF THE FEW**

The Saleen Mustang is a "special edition" high-performance automobile designed and engi-

neered for a select group of driving enthusiasts. In addition to levels of power associated with race cars, this remarkable vehicle provides refined handling, ergonomics, and styling. Further, it delivers the best performance value per

dollar available anywhere.

Its solid foundation is the proven, high-performance Ford 302 V8, teamed with a heavy-duty Borg-Warner T-5 five-speed. This thoroughly reliable powertrain has 20 years of development

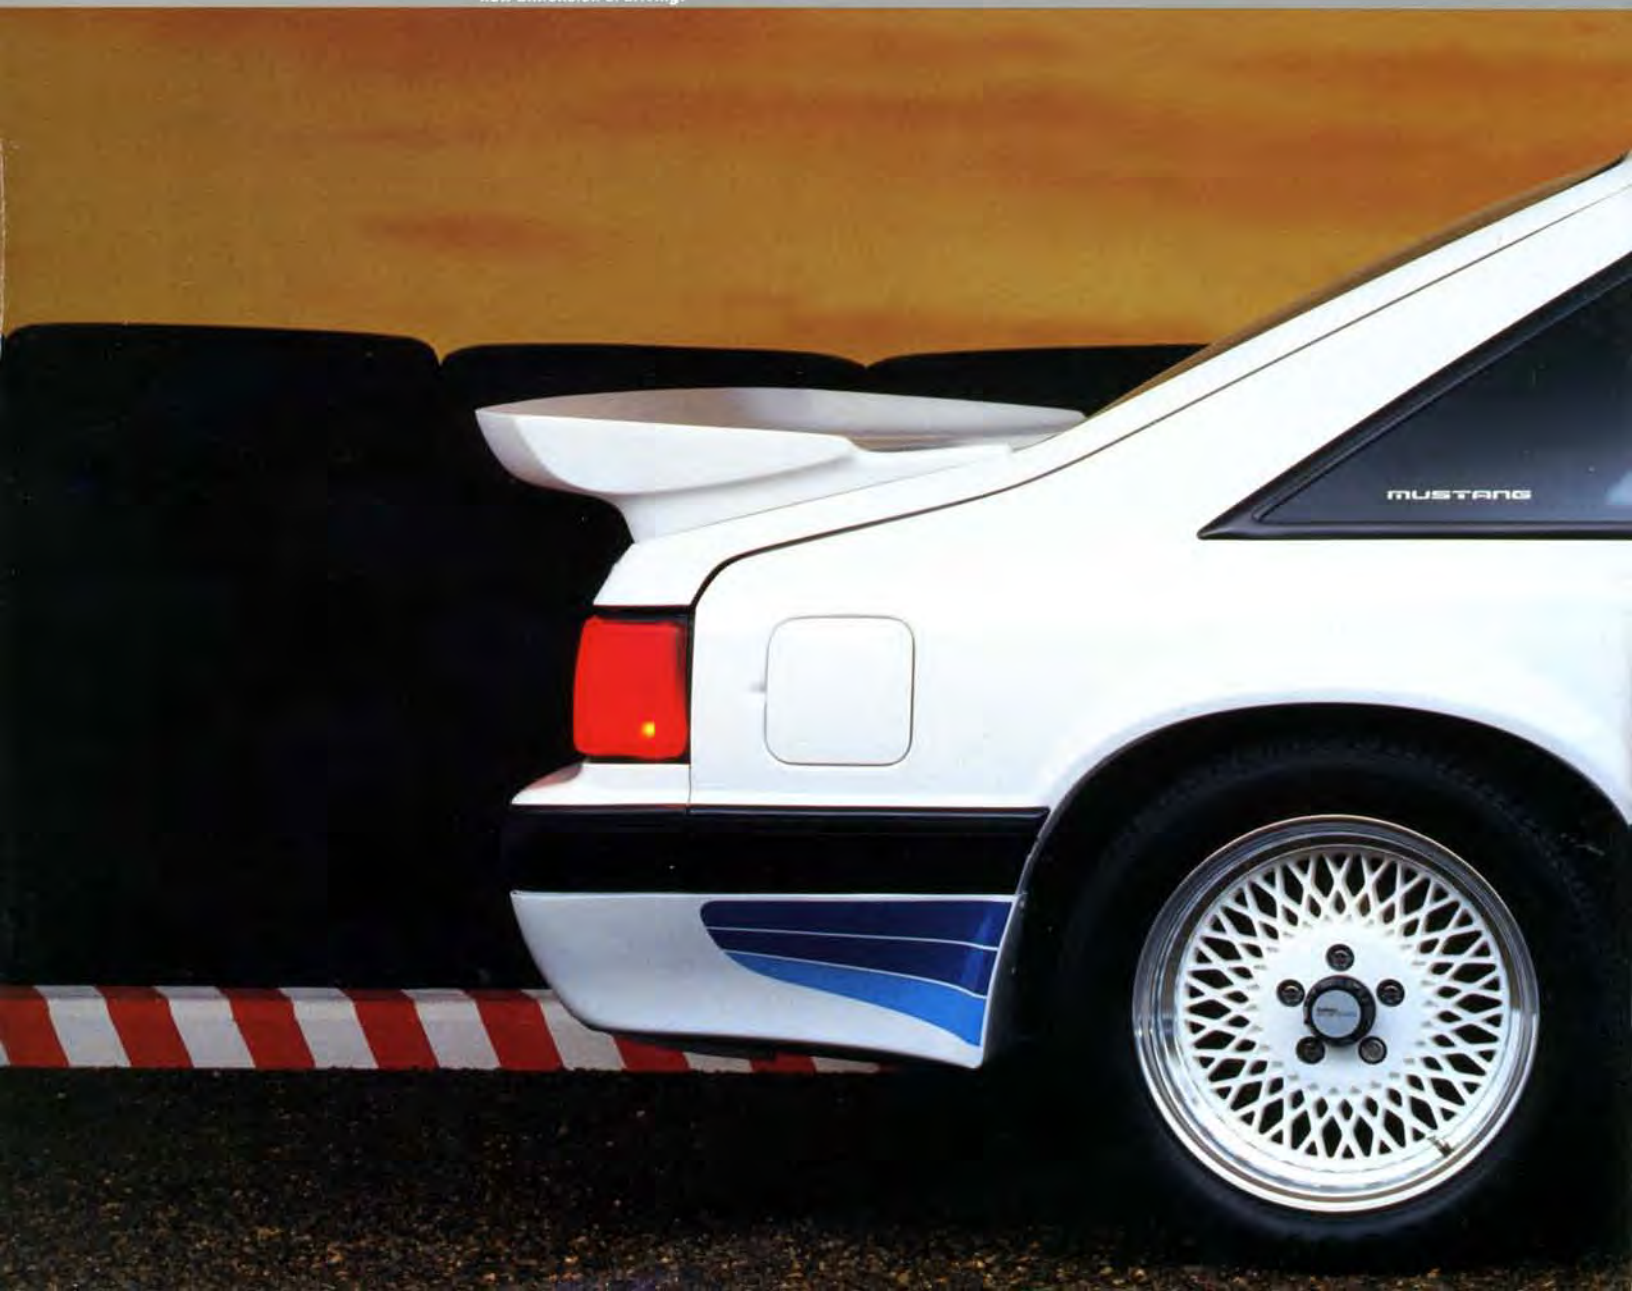

behind it and is backed by a full Ford factory warranty. With this combination, as *Autoweek Magazine* so aptly puts it, "Crank it up, and what you have is a car that'll blow just about everything else into the weeds."

The powerful Saleen Mustang

The Saleen Mustang Convertible opens a new dimension of driving.

THE ULTIMATE DRIVER'S WORKPLACE.

Functional elegance is the keynote of the this well-thought-out interior. Ease into the FloFit sports seats, and you'll echo *Car &*

Driver Magazine's comments: "The seats are comfortable and supportive, the dead pedal is well located, and the Momo wheel reminded us of how satisfying a well-designed three-spoke wheel can be."

An additional highlight is the

Hurst quick ratio shifter with leather shift knob. Instrumentation includes a Saleen electronic tach and 170-mph speedometer. Also included is an exquisite Pioneer cassette am/fm stereo with 6 speakers, 80 watts,

4 channels and a graphic equalizer. A numbered plaque attests to your vehicle's limited status.

SUSPENSION INNOVATIONS
CREATE A TOTALLY BALANCED
PERFORMANCE CAR

Drawing on years of successful racing programs, Saleen Autosport modifies the suspension system to

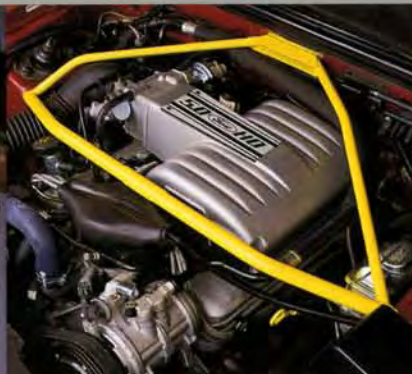

incorporate shorter and stiffer springs, urethane pivot bushings, six Monroe Formula GP gas struts and shocks, and triangular steel chassis bracing. Ford SVO disc brakes and five-bolt hubs are fitted all around, and all chassis

alignments and settings are calibrated for the most demanding driving requirements. Special wide Saleen/American Racing alloy wheels mount General Tire's XP2000V ultra-performance P225/50VR-16 radials.

Road & Track Magazine describes the final result of these innovations as "Improved agility, a suspension that's firm but not excessively so, terrific ultimate grip and improved off-the-line acceleration."

Four-wheel disc brakes with 5-lug bolt pattern

302 V-8 with strut tower bracing

Ultra high performance 16" alloy wheels with VR rated General radial tires

Suspension includes six gas pressurized shock absorbers

RACECRAFT
SUSPENSION

**PERFORMANCE BRED
FROM A RACING HERITAGE**

The Saleen Mustang is rapidly building a new racing heritage with consistently impressive performance in the SCCA Showroom

Stock/GT class. Saleen victories here are the first ever for Fords in this particular category. And progress made trackside quickly translates into improvements you'll welcome on the street. Mechanical refinements like the race

crafted suspension are just one example.

Another track-inspired enhancement is the car's aerodynamically effective styling. Shaped by the wind, the urethane airdam integrated into the nose is complemented by

a rear wing spoiler, advanced rear valance, and special side skirts.

The result of all this is not only functional, but, as *Car & Driver* put it, "The finished product looks like a take-no-prisoner street fighter."

The winner of Ford's first ever victory in SS/GT class racing

Rear wing and valance are aerodynamic and functional
